

opportunities

TTP is looking for bright, hardworking, innovative and hands-on scientists and engineers with a high degree of commercial awareness to contribute to the continued growth and success of our business. Our success depends on the technical excellence, flexibility and commitment of our staff to ensure we meet our customers' targets – development timescales are short, the specifications demanding, and the projects often require international travel.

Experimental Physicists (ref.www-AS1)

Applied Science Group

The Applied Science Group at TTP is a multidisciplinary team of scientists and engineers. We develop leading-edge technologies and products based on them. Our work includes development of micro-mechanical, piezoelectronic, fluidic and optical devices for markets ranging from healthcare to consumer products.

We are seeking a bright, enthusiastic, hands-on physicist and engineer with both an aptitude and interest in commercial development to join our team. The successful candidate will have excellent academic credentials, an intuitive grasp of fundamental scientific principles, and demonstrable drive and commitment.

The Qualifications:

- A 1st or 2.1 degree in physics with a PhD from leading institute.
- Broad experience in experimental research, preferably including development of novel experimental apparatus or methods and work in multi-disciplinary environments.
- Very good oral and written communication, presentation, and team skills.
- Particular fields of interest include: sensing and actuation technologies, fluidics, optics / opto-electronics.
- Project management and commercial experience an advantage.

The Role:

- Experimental physicist applying skills to create innovative and effective solutions to real-world problems, working on and leading demanding technology and product development projects.
- Participate in client meetings, communication, and management.
- Take responsibility for best in class project delivery.

The Rewards:

- Participating in a fast moving, world class business, with the opportunity to make a visible contribution to the success and growth of the business.
- Competitive salary and benefits.
- Professional development opportunities across a range of technical, business, and leadership roles.
