

opportunities

TTP is looking for bright, hardworking, innovative and hands-on scientists and engineers with a high degree of commercial awareness to contribute to the continued growth and success of our business. Our success depends on the technical excellence, flexibility and commitment of our staff to ensure we meet our customers' targets – development timescales are short, the specifications demanding, and the projects often require international travel.

Mechanical Engineers (ref.www-AS3)

Applied Science Group

We are seeking a technically excellent, creative mechanical engineer with both an aptitude and interest in commercial technology and product development to join our team. The successful candidate will have top-level academic credentials and demonstrated drive and commitment.

The Applied Science Group at TTP is a multidisciplinary team of scientists and engineers. We develop leading-edge technologies and products based on them. Our work includes development of micro-mechanical, piezoelectronic, fluidic and optical devices for markets ranging from healthcare to consumer products.

The Role:

- Apply mechanical engineering skills to create innovative and effective solutions to real-world problems, working on and leading demanding technology and product development projects.
- Participate in client meetings, communication, and management.
- Take responsibility for best in class project delivery.
- Actively seek involvement in the development of new business through creation of new ideas and identification of opportunities.

The Qualifications:

- Mechanical engineer with a 1st or 2.1 degree from a leading university.
- Excellent knowledge of mechanical engineering and real-world experience in areas including fluidics, structures, design, dynamics, materials and thermodynamics.
- Exceptional analytical, practical and creative skills.
- The drive and ability to excel in a fast paced, client-facing role.
- Project management and commercial experience an advantage.

The Rewards:

- Participating in a fast moving, world class business, with the opportunity to make a visible contribution to the success and growth of the business.
- Competitive salary and benefits.
- Professional development into a variety of technical, business and leadership roles.
