

opportunities

TTP is Europe's leading technology development and engineering company. Based near Cambridge, England, we have about 300 staff developing technologies, products and manufacturing processes in fields that range from wireless communications and digital printing through to medical devices and life science instrumentation. Our customers are leading businesses throughout the USA, Europe and the Far East.

TTP is looking for clever, hardworking, innovative and hands-on scientists and engineers with a high degree of commercial awareness to contribute to the continued growth and success of our business. Our success depends on flexible and committed staff prepared to ensure we meet our customers' targets – development timescales are short, the specifications demanding, and the projects often require frequent international travel.

Hardware/Firmware Engineer (ref.www-AT1)

Applied Technologies Group

The Applied Technology Group creates, develops and implements leading-edge technologies and products for our clients across a diverse range of markets, including instrumentation, embedded communications, aerospace, defence and security. This encompasses electronics hardware, software, embedded firmware, mechanical systems, algorithm development and applied science.

The Qualifications:

- Hardware/Firmware Engineer with a 1st or a 2.1 degree.
- Track record of hardware electronics design with advanced processors and FPGAs.
- Experience of system level design.
- Working knowledge of C/C++ in embedded applications.

The Role:

- Engineer in technically demanding embedded hardware and firmware projects across a wide variety of industries.
- Participate in client interface, communication and technical programme lead.
- Contribute to the growth of the Applied Technology business.

The Rewards

- Competitive salary and benefits.
- Professional development into a variety of technical, business and leadership roles.
- Participating in a fast moving, world class business, with the opportunity to make a visible contribution to the long term success and growth of the business.
