

opportunities

TTP is Europe's leading technology development and engineering company. Based near Cambridge, England, we have about 300 staff developing technologies, products and manufacturing processes in fields that range from wireless communications and digital printing through to medical devices and life science instrumentation. Our customers are leading businesses throughout the USA, Europe and the Far East.

TTP is looking for clever, hardworking, innovative and hands-on scientists and engineers with a high degree of commercial awareness to contribute to the continued growth and success of our business. Our success depends on flexible and committed staff prepared to ensure we meet our customers' targets – development timescales are short, the specifications demanding, and the projects often require frequent international travel.

Experienced Project Leader (ref.www-MD5)

Medical Devices Group

TTP is seeking an experienced project leader with a strong track record in one or more of the following areas; drug delivery devices, diagnostic instrumentation or surgical technology. The successful candidate will have a passion for delivering technology research and/or product development projects to time and to budget, as well as having excellent client management skills.

You will be expected to:

- Understand the needs of clients, and to enjoy the challenge of meeting these needs by providing excellent development services
- Take the lead in demanding medical technology projects, with responsibility for a project team consisting of engineers, physicists, designers and technicians
- Manage all aspects of a project including proposals, financial management, execution, resources, all client communications, review and on-going sales

You will have:

- A first class or upper second class degree in engineering or physics
- Excellent communication and presentation skills
- Intrinsically high levels of motivation
- A passion for challenging technology and/or product development activities
- Gravitas derived from significant experience gained in a relevant medical sector
- Familiarity with the regulatory context of medical device development

Employment benefits

- Participation in a fast moving company with the opportunity to make a visible contribution to the success and growth of TTP's Medical Devices Group
- Highly competitive salary and benefits
