

opportunities

TTP is Europe's leading technology development and engineering company. Based near Cambridge, England, we have about 300 staff developing technologies, products and manufacturing processes in fields that range from wireless communications and digital printing through to medical devices and life science instrumentation. Our customers are leading businesses throughout the USA, Europe and the Far East.

TTP is looking for clever, hardworking, innovative and hands-on scientists and engineers with a high degree of commercial awareness to contribute to the continued growth and success of our business. Our success depends on flexible and committed staff prepared to ensure we meet our customers' targets – development timescales are short, the specifications demanding, and the projects often require frequent international travel.

User Centred Design Engineer (ref.www-MD6)

Medical Devices Group

TTP is seeking bright, ambitious user centred design engineers to help create, analyse and develop new medical technologies. The successful candidates will be expected to make a solid contribution to a group with core business in drug delivery devices, manufacturing systems, diagnostic instrumentation and surgical technology.

You will be expected to:

- Contribute to and lead teams that execute new or existing product usability plans and concepts
- Effectively integrate with a talented multi-disciplinary team of like-minded people

You will have:

- A 1st or 2.1 degree in engineering followed by a postgraduate qualification in industrial design (with an emphasis on usability), human factors, user centred design or similar
- In depth knowledge of human factors and user centred design
- Experience of conducting user research
- A track record of medical product development
- A background in some of the following - psychology, ethnography, inclusive design or ergonomics
- An understanding of or experience in FDA/MDD legislation on human factors would be beneficial

Employment benefits

- Highly competitive salary and benefits
- Professional development into a variety of technical, business and leadership roles
- Participation in a fast moving company with the opportunity to make a visible contribution to the success and growth of TTP's Medical Devices Group.
